## THE FIRST STEP ON YOUR STUDENT'S JOURNEY TO SUCCESS

Take a moment to celebrate — Your student has been admitted to Bridgewater State University, marking the first step on their journey to success.

The choices your student makes in the next few years — and the experiences they will enjoy as a result — will help determine the course of the rest of their life. Our classes prepare students with essential critical thinking and analytical skills that top employers value. Professors and staff mentor and support students as they discover and develop their talents and passions. And the friends our students make here may last a lifetime.

Bridgewater is an extraordinary public university in the heart of Southeastern Massachusetts — with a community of accomplished alumni that spans the globe. Students from all backgrounds find their place on our campus, where they develop their own definition of success. With a Bridgewater education, there's no limit to what your student can achieve.

## ENDLESS OPPORTUNITIES

Three quarters of Bridgewater graduates secure jobs related to their field of study within a year after graduating. It's no wonder our emphasis on a liberal arts education affords students a wide range of skills and experiences that make them particularly desirable candidates for future employers. From our distinguished Honors Program to our undergraduate research program, which was named one of the top in the country – not to mention top-notch faculty to guide students along the way – Bridgewater's rigorous academic offerings offer an amazing value.

Beyond the classroom, our popular internship program allows students to gain valuable professional experience while they're still in school. Our study abroad programs give every student the chance to expand their worldview and explore new cultures. And our campus-wide emphasis on social justice helps students hone a tireless work ethic and strong sense of character that will benefit them across a wide spectrum of careers.

## HOME AWAY FROM HOME

Bridgewater attracts students from a wide range of backgrounds, creating a vibrant on-campus community that's diverse in every sense of the word. First-generation college students study alongside military veterans, while artists, musicians, scientists and mathematicians sit side-by-side during lunchtime study sessions.

From commuter lounges and delicious eateries to plenty of green space for relaxing while studying, Bridgewater's beautiful, 278-acre campus is full of little details that truly make it feel like home – and rest assured that our campus is safe. BSU was ranked the fourth safest college campus in the country. Our on-campus Wellness Center offers care for students' bodies and minds with walk-in and appointment-based health services, as well as both individual and group counseling. We have capacity for more than 3,300 students to live on campus in one of our 11 residence halls just steps away from class, while ample parking and an MBTA Commuter Rail stop make it easy for students who live off campus to be a vital part of our community.

## UNBEATABLE VALUE

The true value of a Bridgewater education lies in the preparation students receive for a lifetime of success. Our community – students, faculty, staff and administrators alike – are advocates of the power of a public education.

As an institution, we are committed to creating opportunity for talented students who might not otherwise have the chance to attend college. Bridgewater has been ranked ninth in the nation for closing achievement gaps among various groups of students.

Our team of counselors work closely with students and their families to help bring a Bridgewater education within reach for anyone who is motivated to pursue it – regardless of their means. More than 85 percent of our students receive some form of financial assistance.
